Main features

Altamira HRM has the following major features:

- A **database of employees**
- **Competence** tracking and management
- Performance evaluation involving managers and their reports
- A rich **reporting** environment
- Learning management
- Budgeting and a salary increase process

Other features

Altamira HRM is a web based platform sold as a **Software as a Service (SaaS)**: this allows organizations to share the information managed with managers and employees

As it is an **on demand platform** there is no installation and no additional burden on your IT department

Altamira HRM is interoperable with other applications such as payroll

Other features (cont.)

Altamira HRM manages the and dynamically updates the organizational chart

The platform effectively becomes a **business intelligence** tool for Human Resources

Altamira HRM allows the development of individual and group competences ensuring the organizations goals are met
